Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's submission for RCE filed on Aug. 29, 2007 has been entered. Claims 1, 3-6, 8-15 are pending. Claim 2 and 7 are canceled and Claims 1, 6 and 10 are amended by the applicant. Claims 11-15 are newly added claim by applicant.

2. The Office would like to notify the Applicant that there has been a change in the Examiner to conduct the future examination and prosecution processes of the currently pending application.

3. During the telephone conversation with Mr. Wilson Mark A., on 10/30/07, Examiner indicated to the applicant a possible restriction due to various embodiments in the claims and potential 101 issue associated with claims 1, 6, 10, and 11. Prior to directing the 101 issue, applicant is advised to elect one group for examination based on the election/restriction presented in the office action.

Election/Restrictions

4. This application contains claims directed to the following patentably distinct species:

- a. Species 1: Claims 1, 3-5, 6, 8-9, 10, 14, 15.
- b. Species 2: Claims 11-13

5. The Species are independent or distinct because each of the various disclosed Species details specific characteristic of the following:

a. a method of detecting point correspondences between a first set of points and a second set of points, comprising the following steps: finding of possible matching pairs, finding a maximum number of matching pairs, further comprises combining of two matching pairs..., determining an affirm map for each tuple, determining an affine map for each tuple, sorting of the plurality of tuples...., creating a search tree.., deriving a matching result from the search tree.

b. a method of detecting point correspondences between a first set of points and a second set of points, comprising the following steps: finding of possible matching pairs, finding a maximum number of matching pairs, determining a matching rate and a hypothesis rate, forming a two-dimensional result space in which the match rate is entered along a first dimension and the hypothesis rate , finding a point in the two-dimensional result space, forming a cluster in the result space, finding a matching result on the basis of a distance of the point from the cluster.

6. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

7. Applicant is advised that a reply to this requirement must includes an identification of the species that is elected consonant with this requirement, and a listing

of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

8. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.411. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02 (a).

9. Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

10. The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

11. Should applicant traverse on the ground that the inventions or species are not patentably distinct, Applicant should submit evidence or identify such evidence now or record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if Examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

12. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nirav Patel whose telephone number is 571-272-5936. The examiner can normally be reached on 8 am - 4:30 pm (M-F).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kim Vu can be reached on 571-272-3859. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
